

according to Regulation UK SI 2019/758 and UK SI 2020/1577 as amended

Creation Date 20-Apr-2010

Revision Date 24-Jan-2024

Revision Number 5

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1. Product identifier

| Product Description:      | Silicon carbide powder |
|---------------------------|------------------------|
| Cat No. :                 | A13561                 |
| Synonyms                  | Silicon Carbide.       |
| Index No                  | 014-048-00-5           |
| CAS No                    | 409-21-2               |
| EC No                     | 206-991-8              |
| Molecular Formula         | SiC                    |
| REACH registration number | -                      |

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

| Recommended Use      | Laboratory chemicals.    |
|----------------------|--------------------------|
| Uses advised against | No Information available |

#### 1.3. Details of the supplier of the safety data sheet

Company

Avocado Research Chemicals Ltd. (Part of Thermo Fisher Scientific) Shore Road, Heysham Lancashire, LA3 2XY, United Kingdom Office Tel: +44 (0) 1524 850506 Office Fax: +44 (0) 1524 850608

E-mail address

begel.sdsdesk@thermofisher.com

1.4. Emergency telephone number

For information **US** call: 001-800-227-6701 / **Europe** call: +32 14 57 52 11 Emergency Number **US**:001-201-796-7100 / **Europe**: +32 14 57 52 99 **CHEMTREC** Tel. No. **US**:001-800-424-9300 / **Europe**:001-703-527-3887

## **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1. Classification of the substance or mixture

CLP Classification - According to GB-CLP Regulations UK SI 2019/720 and UK SI 2020/1567

#### Physical hazards

Based on available data, the classification criteria are not met

#### Silicon carbide powder

## Health hazards

Based on available data, the classification criteria are not met

#### **Environmental hazards**

Based on available data, the classification criteria are not met

Full text of Hazard Statements: see section 16

#### 2.2. Label elements

None required

#### 2.3. Other hazards

Substance is not considered persistent, bioaccumulative and toxic (PBT) / very persistent and very bioaccumulative (vPvB) Inhalation of dust in high concentration may cause irritation of respiratory system Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough This product does not contain any known or suspected endocrine disruptors

## **SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS**

#### 3.1. Substances

| Component       | CAS No   | EC No             | Weight % | CLP Classification - According to<br>GB-CLP Regulations UK SI 2019/720 and<br>UK SI 2020/1567 |
|-----------------|----------|-------------------|----------|---|
| Silicon carbide | 409-21-2 | EEC No. 206-991-8 | <=100    | -   |

| REACH registration number | - |
|---------------------------|---|
|                           |   |

Full text of Hazard Statements: see section 16

## **SECTION 4: FIRST AID MEASURES**

#### 4.1. Description of first aid measures

| Eye Contact  | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get medical attention.         |  |
|--|---|--|
| Skin Contact   | Wash off immediately with plenty of water for at least 15 minutes. Get medical attention immediately if symptoms occur. |  |
| Ingestion  | Clean mouth with water and drink afterwards plenty of water. Get medical attention if symptoms occur.                   |  |
| Inhalation   | Remove to fresh air. Get medical attention immediately if symptoms occur.   |  |
| Self-Protection of the First Aider                               | No special precautions required.  |  |
| 4.2. Most important symptoms and effects, both acute and delayed |   |  |

None reasonably foreseeable.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes to Physician

Treat symptomatically.

## **SECTION 5: FIREFIGHTING MEASURES**

#### 5.1. Extinguishing media

#### Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam.

#### Extinguishing media which must not be used for safety reasons No information available.

#### 5.2. Special hazards arising from the substance or mixture

Thermal decomposition can lead to release of irritating gases and vapors.

#### **Hazardous Combustion Products**

Silicon dioxide.

#### 5.3. Advice for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## **SECTION 6: ACCIDENTAL RELEASE MEASURES**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Use personal protective equipment as required. Avoid dust formation.

#### 6.2. Environmental precautions

Should not be released into the environment.

#### 6.3. Methods and material for containment and cleaning up

Sweep up and shovel into suitable containers for disposal. Avoid dust formation.

#### 6.4. Reference to other sections

Refer to protective measures listed in Sections 8 and 13.

## **SECTION 7: HANDLING AND STORAGE**

#### 7.1. Precautions for safe handling

Wear personal protective equipment/face protection. Ensure adequate ventilation. Avoid ingestion and inhalation. Avoid contact with skin, eyes or clothing. Avoid dust formation.

#### **Hygiene Measures**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not eat, drink or smoke when using this product. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash hands before breaks and after work.

#### 7.2. Conditions for safe storage, including any incompatibilities

Keep containers tightly closed in a dry, cool and well-ventilated place.

Technical Rules for Hazardous Substances (TRGS) 510 Class 13 Storage Class (LGK) (Germany)

#### 7.3. Specific end use(s)

Use in laboratories

## **SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### 8.1. Control parameters

#### **Exposure limits**

The manufacturer recommends a 5 ppm PEL. List source(s): **UK** - EH40/2005 Work Exposure Limits, Fourth edition. Published 2020. **IRE -** 2021 Code of Practice for the Chemical Agents Regulations, Schedule 1. Published by the Health and Safety Authority

| Component       | The United Kingdom                | European Union | Ireland                               |
|-----------------|-----------------------------------|----------------|---------------------------------------|
| Silicon carbide | STEL: 30 mg/m <sup>3</sup> 15 min |                | TWA: 3 mg/m <sup>3</sup> 8 hr.        |
|                 | STEL: 12 mg/m <sup>3</sup> 15 min |                | respirable dust                       |
|                 | TWA: 10 mg/m <sup>3</sup> 8 hr    |                | TWA: 0.1 f/cc 8 hr. fibrous           |
|                 | TWA: 4 mg/m <sup>3</sup> 8 hr     |                | TWA: 10 mg/m <sup>3</sup> 8 hr. total |
|                 | _                                 |                | inhalable dust                        |
|                 |                                   |                | STEL: 30 mg/m <sup>3</sup> 15 min     |
|                 |                                   |                | STEL: 9 mg/m <sup>3</sup> 15 min      |
|                 |                                   |                | STEL: 0.3 f/cc 15 min                 |

#### **Biological limit values**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

## Derived No Effect Level (DNEL) / Derived Minimum Effect Level (DMEL)

See table for values

| Component                          | Acute effects local<br>(Inhalation) | Acute effects systemic (Inhalation) | Chronic effects local<br>(Inhalation) | Chronic effects systemic (Inhalation) |
|------------------------------------|-------------------------------------|-------------------------------------|---------------------------------------|---------------------------------------|
| Silicon carbide<br>409-21-2(<=100) |                                     | DNEL = 94mg/m <sup>3</sup>          |                                       |                                       |

#### Predicted No Effect Concentration (PNEC)

No information available.

#### 8.2. Exposure controls

#### **Engineering Measures**

None under normal use conditions.

#### Personal protective equipment Eye Protection

**Hand Protection** 

Wear safety glasses with side shields (or goggles) (European standard - EN 166)

Protective gloves

#### Revision Date 24-Jan-2024

#### Silicon carbide powder

| Glove material                                      | Breakthrough time                 | Glove thickness        | EU standard             | Glove comments         |
|---|-----------------------------------|------------------------|-------------------------|------------------------|
| Natural rubber<br>Nitrile rubber<br>Neoprene<br>PVC | See manufacturers recommendations | -                      | EN 374                  | (minimum requirement)  |
| Skin and body prote                                 | ection Wear ap                    | propriate protective g | loves and clothing to p | prevent skin exposure. |

Inspect gloves before use.

Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. (Refer to manufacturer/supplier for information)

Ensure gloves are suitable for the task: Chemical compatability, Dexterity, Operational conditions, User susceptibility, e.g. sensitisation effects, also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion.

Remove gloves with care avoiding skin contamination.

| Respiratory Protection     | No protective equipment is needed under normal use conditions.  |
|----------------------------|---|
| Large scale/emergency use  | Use a NIOSH/MSHA or European Standard EN 136 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced <b>Recommended Filter type:</b> Particle filter |
| Small scale/Laboratory use | Maintain adequate ventilation   |

Environmental exposure controls No information available.

## **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

#### 9.1. Information on basic physical and chemical properties

### 13.1. Waste treatment methods

Waste from Residues/Unused Products

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

Revision Date 24-Jan-2024

| Contaminated Packaging         | Empty remaining contents. Dispose of in accordance with local regulations. Do not re-use empty containers. |
|--------------------------------|--|
| European Waste Catalogue (EWC) | According to the European Waste Catalog, Waste Codes are not product specific, but application specific.   |
| Other Information              | Waste codes should be assigned by the user based on the application for which the product was used.        |
